Project Phoenix - Status Report

Date: June 20, 2025
Prepared By: Project Management Office

📌 Overview

Project Phoenix aims to streamline internal logistics using AI-based predictive models. The goal is to reduce delivery lag by **30%** and improve **supplier lead time prediction accuracy**.

📈 Financial Summary

- **Total Budget Allocated:** ₹15,00,000

- **Amount Spent (as of June 20):** ₹6,20,000

- **Remaining Budget:** ₹8,80,000

🛠️ Current Progress

- ✅ Requirement analysis completed

- ✅ Model design finalized

- 🚧 Development started on **June 15**

- 🔄 Backend API integration is in progress

👥 Team Structure

- **Project Manager:** Arjun Sinha

- **Tech Lead:** Riya Mehta

- **Data Scientist:** Kunal Verma

- **Backend Developer:** Aditi Jain

⚠️ Risks & Concerns

- ❗ Vendor data delay may impact model training timelines

- ❗ Compliance review for external API integration is still pending

---

📅 Next Milestone

- **Complete MVP by: July 10, 2025**
